We often make small fun games, but this campaign will be different. You are basically a real restaurant manager, acting the part of the maitre d'. You have to solve three tiny problems for your customers and help them build a restaurant. You'll have to decorate the restaurant, cook, serve tasty food and clean up! Soundtrack: "Sixteen Tons Theme" by T.Rex. By the same artist - "Get It On Theme" by Abrasives. Dine With Us! Ratings and Reviews Diner Bros - Taco Amigos Campaign - v1.0.6 Ratings and Reviews Diner Bros - Taco Amigos Campaign - v1.0.7 - 30/04/2017 - 1.00 /5 - by Paulo Dos Santos I am just an average reviewer, who likes the game and may know how to play the game. I have played all sorts of games for more than 15 years now and I could say that this game is good but not great. It has a cute atmosphere and is entertaining, but the problems are not challenging enough and they are poorly explained. I was trying to solve a problem by myself and I could not! The problems are just a side story and they are all interconnected. You only have to go to the bathroom, mop the floor or clean the bar to solve problems! But that is just my opinion. The game is recommended for the casual gaming player. Taco Amigos - Diner Bros - Campaign - v1.0.5 - 04/12/2016 - 1.00 /5 - by Franky Snorf We used to be a restaurant together. We both had the same dream to open our own restaurant in the United States. We had tried our best with different restaurant ideas. We had to fight different people, we had to be flexible and we had to work very hard. We made some mistakes and we failed miserably. We decided to open a restaurant of our own to prove our point. We will never let you down! I am just an average reviewer, who likes the game and may know how to play the game. This Game Mode is about playing a character in one of the most horrible places on earth - Chernobyl! The events of the game will take place entirely in Chernobyl - you will be a firefighter, and the mission is simple: find a way out of the toxic wastes zone. Find the exits, save the people, find the people, and... just don't get trapped! We do not intend to spoil the "atmosphere" in the game. Many can already imagine the terrible story, and more information will be given to you along the way. The Game takes place inside the abandoned zones of the Pripjat Nuclear Power Plant - a place covered in toxic waste. The landscape will look familiar to anyone who played Fallout 2. The Place will be full of mutants, disease carriers, and of course... zombies. With the arrival of winter, it will be impossible to escape - so your story will begin in the middle of the game. Game Mode Rules: Sign up for all in! Beta program to play Chernobylite in December 2018; Gameplay Progress will be rewarded with game-related item such as cosmetic items, achievements, unique levels and so on; There are various ways to experience Chernobylite: in Survival mode, in a dedicated sandbox with various places you can explore, in a campaign with one- or two-hour missions, or in a hardcore story mode without levels, times and secrets. The Story The game takes place inside the abandoned zones of the Pripjat Nuclear Power Plant - a place covered in toxic waste. The landscape will look familiar to anyone who played Fallout 2. The Place will be full of mutants, disease carriers, and of course... zombies. With the arrival of winter, it will be impossible to escape - so your story will begin in the middle of the game. Game Mode Rules: Play the game for up to 60 hours (this includes all objectives, side quests, secrets, replayability, etc); The different Story options are here to help you on your way through Chernobylite, but the main objective of the game will always be to escape from the Zone, survive and live as long as possible. The Alpha 1.0 version of Chernobylite was released at the end of 2018 and a special update for the new Update 1.0 will come in early 2019. We plan to keep the Alpha and Update 1.0 separated. This

What's new:

- Many different characters can be found along the conveyor belt. They all have their own purposes, be it to store and/or deliver packages or collect money, or simply collect spare change or paper people to death. - Each character has a different ability, so using combinations of characters can lead to new challenges. - Characters can be customized with the currency collected on the conveyor belt to create a perfect paper society, and each social class plays a part in this perfection. - Once you've sufficiently studied a certain character, they will teach you new techniques, either by explaining simple methods to perfect your character, or by suggesting new and interesting techniques. - Paper people come in many different shapes and sizes, and have their own abilities. A good deal of the game is to perfect your means of collecting them. - Due to the toxic workers in the furnace, many paper people would explode. Explosions and slow motion death are at the bottom of the list of paper people to collect. - Something that could happen with any character. Large explosions, slow motion death, and even death. - You are not required to collect all 200 paper people to complete the game. The Giant Scavenge the conveyor belt for items. Be careful of the giant, as it is the only thing that can kill you. - You can analyze the social statuses of the items on the conveyor belt, but there is a tendency for the giant to be jealous and angry, so be careful. - You can change and save any character you like. If you want to keep any of them, make sure you save your game as soon as you change characters! - Getting hit by the giant's head will make you slow down and lose a lot of your currency, resulting in the losing of the game. - If you've got enough money, you can purchase upgrades for the giant. It will hopefully protect you from the unfortunate ways that you may meet death. The Supervisor Manage the machines on the conveyor belt. You have 4 machines at your disposal: - The conveyor belt; - The giant; - The processor; - The freezer. - A supervisor is needed for each machine. - A good supervisor earns a lot of experience points. - A well-managed conveyor belt, processor, and freezer will allow you to better perfect your

paper people. - Supervisor machines can be upgraded to become better machines.
